**SUBJECT: Letter of Certification
RoHS Compliance**

EFI-Jetrion has prepared this letter to certify that the Jetrion WFK3824 product does not contain the following restricted substances above thresholds identified in the EC Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS).

- **Polybrominated biphenyls (PBB)**
- **Polybrominated diphenyl ethers (PBDE)**
- **Cadmium, Lead, Mercury and Hexavalent Chromium**

This certification is based upon product formulation and data provided by raw material suppliers. Laboratory analysis was not performed. Should you have any questions or require additional information, please contact the EFI EH&S Department at EHS@efi.com.
